

## Purpose

You are the key person, the only one who can bring your speech to life. Delivery is vital to the overall speech success. There are several things that can go wrong during a presentation and are beyond your control (e.g., physical and external distractions, audience reactions, etc.). Your readiness, preparedness, and fluency are within your control. It is up to you how rehearsed you will be. If you want to do well in a presentation, make sure to rehearse out loud multiple times until you are fluent and can deliver the speech without note. Your delivery plays a big part in how the audience perceives your credibility. Remember, **being prepared is a choice!**
